- **Questions people ask** by Fr Silvester O'Flynn OFM Cap. Email: silvesteroflynn@gmail.com

Question: How is it that those places most associated with reading the Bible have produced the most bigoted people on earth, backing self-righteousness, apartheid and colour discrimination?

Answer: People of the book focus entirely on their sacred book apart from the wisdom of the wider community. The Scribes and Pharisees made this mistake in their time. Christian and Islamic fundamentalists, and followers of the Communist Red Book, followed suit. People then chose texts which back up their own ideas and miss the total picture. Even the devil selected biblical texts in tempting Jesus. Referees who meticulously follow the book infuriate players and spectators when they do not let common sense prevail. Beware of the man of the one book!
