Question: Are we to take literally the words of Jesus about the sun and moon losing light and stars falling from heaven? I find these bits scary. **Answer:** The physical universe that we can observe will probably burn out at some stage, maybe millions of years hence. Only God knows when. The teaching of Jesus is not meant to scare us but to reassure us that his words will last forever and that all life will culminate with the victory of God in power and glory. When the evangelist Mark recalled these words of Jesus it must have greatly strengthened the Christians of his time as they were being savagely persecuted.
